## **TOWN OF BASHAW HYDRANT FLUSHING**

*The Town of Bashaw will be engaging in water transmission line maintenance Wednesday, May 4, 2016 from 8:00a.m. to 4:00 p.m.*

This will require that all Town hydrants be systematically opened and flushed to clear the water lines of sedimentary debris. Some inconvenience may be encountered as only the mains will be cleared and sediment may accumulate in the service lines. To correct this problem, allow the taps to run for a few minutes. Residents may wish to refrain from cleaning activities such as laundry until the following day. For cooking purposes, (morning coffee, tea, lunch, etc.) save your anticipated water requirements the day before.

*We trust that the maintenance will proceed with minimal inconvenience to the residents; however, we ask for your cooperation in this matter.*
