FEBRUARY

The month of February is thought to be a month of LOVE, given St. Valentine's Day. Use this time to love not only your partner, but your neighbors, friends, and family. Take the time to let everyone around you know that you appreciate them. Put positive out in the world, and the world will bring positive back to you!

Belly Laughs

Probably the worst thing you can hear when you're wearing a bikini is "Good for you!"

Every *Scooby-Do* episode would literally be two minutes long if the gang went to the mask store first and asked a few questions.

Q: What did one mushroom say to the other on Valentine's Day?

A: "There's so mushroom in my heart for you!"

Submit your own hilarious jokes for future editions!!

Inspiring Quotes!

Remember, life is like a mirror... smile at it and it will smile back! Peace Pilgrim

Better an "oops" than a "what if"... an oops you learn from, a what if will always be a regret. Beau Taplin

Princess Predictions

There is absolutely no scientific research or reading of the stars in these horoscopes. These are completely made up and only come from my thoughts and opinions. They are meant only as a source of positive thought, humor, and entertainment.

Aquarius (Jan 20 - Feb 18) - You are very truthful, frank, imaginative and affectionate. However, you can also be very stubborn. It's time to put your stubbornness aside and share with that special someone just how you feel about them. After all, February is the month to fall in LOVE and you are an excellent communicator!

Pisces (Feb 19 - Mar 20) - Although you tend to "go with the flow", don't leave anything to chance this month! Your easy going nature could easily turn into lazy. Lazy and LOVE do not work well together. Be creative and make LOVE happen for you. Don't be so laid back this month!

Aries (Mar 21 - Apr 19) - Now is the time to take action!! February is the month you have been waiting for. Create an adventure for LOVE this month. You are confident and energetic with a very strong personality. These are traits that your LOVE will admire! Don't think about the long term commitment, think day by day and manifest what you want.

Taurus (Apr 20 - May 21) - Patience is definitely a virtue and a strong trait which you possess. However, now is not a time for that. Jump to it! You are very generous, independent and reliable, who wouldn't want you as a part of their life? Make it happen now! Go get your LOVE!

Gemini (May 21 - Jun 21) - You may just be the perfect zig to someone's zag! You are intelligent and possess humor like no other. Everyone needs to have some fun, especially in such a hectic world! Be impulsive, go outside your box, make that special someone understand just how special they are to you!

Cancer (Jun 22 - Jul 22) - You are loyal to a fault. Your sensitive nature makes you easy prey for onlookers. Take control and move forward with confidence because LOVE is on your side. Your heartwarming acts will help to win the heart of that special someone!

Leo (Jul 23 - Aug 22) - It's time for you to use your optimism to step out of your comfort zone to get what you want. Be glamorous and demand the attention from the one you LOVE. Be confident and your actions will pay off!

Virgo (Aug 23 - Sep 22) - Don't think too much about what you want. Instead of listening to everyone else, listen to your heart and go get what you want... and have fun with it. Don't go over thinking this and don't let anyone make fun of how you go about it!

Libra (Sep 23 - Oct 22) - this is your month Libra. Romance is your thing. Although you are a natural peace keeper, it's time to fight for the LOVE and romance that you want and deserve. Use all your energy to attract what you want.

Scorpio (Oct 23 - Nov 21) - you are dramatically in tune with your feelings. You are very passionate and ambitious. Use that ambition to get your LOVE life to where you want it. Don't let jealousy cloud your judgement. You are very wise and know what you want, now make sure your LOVE knows too.

Sagittarius (Nov 22 - Dec 21) - This may be a good month for changes for you. You LOVE to travel, so now is the time. You may want to take your LOVE with you, perhaps the travel will introduce your LOVE into your life. You have a great sense of humor, use that to your advantage to draw your LOVE closer to you.

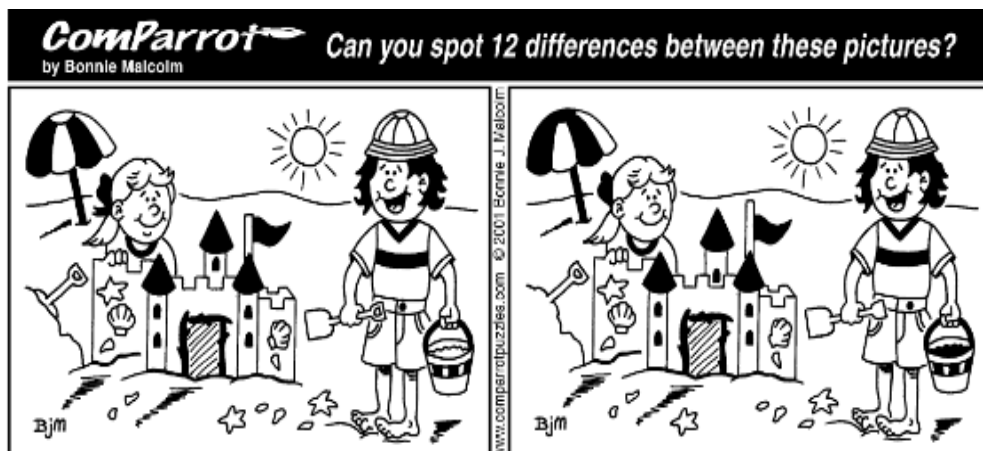

Capricorn (Dec 22 - Jan 19) - You're hardworking, serious, and loyal to your core. Time to sit back, relax and let your pessimism drift away. Be patient and let LOVE take a hold of you. This is no time for a debate. Trust that LOVE is on your side. Positive changes are on the horizon for you.
